Overview

The SmartByte LT-IS6328XGP-4XS24GT-4BT series are the highly reliable Layer 2+ managed industrial PoE switches with 24-port 10/100/1000Base-T RJ45 and 4-port 1G /2.5/10GBase-X SFP+. They comply with IEEE802.3af PoE, IEEE802.3at PoE+, IEEE802.3bt PoE++ standard protocol, the Max power output consumption per port can reach 90W (1-4 ports), which are the idea solution for those high power consumption industrial networking PDs. With full gigabit downlink and 10G uplink capability, they can provide high performance and the ability to quickly transfer large amounts of video, voice, and data across a network. They support DI/DO/RS485, G.8032 ERPS, MSTP/RSTP/STP redundancy technologies, powerful Layer 2 management and secure function, which all making them ideal for large-scale industrial networks.

LT-IS6328XGP-4XS24GT-4BT series are also the high cost-effective easy-to-use devices, which provide essential industrial Ethernet networking function, including redundant power supply with DC44-57V input, robust IP40 fan-less housing with Din-rail installation, wide operation temperature from -40°C to 70 °C as well as high-level EMI/EMC capability. They are the best choices for heavy industrial factory, transportation, oil & gas, chemical, IP Surveillance and processing automation area where environmental conditions are harsh and critical.
